

**Model letter Fortom Chimica
Waste/Recycling REACH**

Quinto Vicentino (VI)

OBJECT: REACH- Regulation CE 1907/2006- 30.12.2006.

- Ref. Your. fax of _____

Dear Customers,

Fortom Chimica Srl, since 1984, performs solvents disposal and recovery from industrial waste coming from different sources, such as pharmaceutical, printing, colour and varnish, tannery and mechanical industries, ...

The Italian legislation, according to the art. 181 D. Lgs. 152-03/04/06 foresees the recovery and the reuse of the industrial waste.

According to the art. 2- paragraph 2 (application field) the Regulation CE1907/2006 is not enforced to the waste defined in the directive 2006/12/CE.

In particular, the Regulations' art. 23, 24, define the substances subjected to a transitional system.

The pure or mixed solvents coming from a recovery plant are substances or products classified from the directive 67/548/CE.

According to all these directives and to the Regulation, Fortom Chimica Srl is not a producer of substances or products, but it is a downstream user.

The procedure foreseen from the Chapter 3 of the Regulation " REACH " is the following:

Fortom Chimica Srl informs the companies which **bring** the exhausted solvents (waste) and that are upstream the supplying chain to require by the pure solvents' or products' producers and/or importers to include the "**recovery**" as "**identified use**" in the registration.

The commercial companies and/or users that buy pure solvents or products are "upstream users". The use of the solvent or of the products coming from the recovery have to be identified and the information have to be exchanged according to the art. 29 e 31 of Chapter 3.

Fortom Chimica Srl has already listed the various substances that are part of the products and substances that it markets.

All their elements are classified from the Dir 67/548/CEE. According to the "REACH" Regulation, they are substances subjected to a transitional system (Art. 23, Art. 24 and Art. 28) and the agency will assign them a registration number from the 1° January 2009.

In order to achieve a common knowledge, we kindly ask you to fill in the following form for the information's collection, or to send us what you've already arranged. We will give the information to our purchaser in order to contemplate all the exposition scenery and in this way to allow the producer, who will register the substance, to identify the evaluation risk.
